

Would you like to be part of a remarkable team@Renault?

We are looking for a motivated and passionate driven individual to come and join our Engineering **HR team**.

As **HR Business Partner** you will be working closely with the General Manager and the Managerial population from Mechanical Engineering on all HR topics.

With support and enablement from the HR centers of expertise, you will provide advice and guidance to the management teams on all aspects of human resources.

You will lead on resourcing planning, talent management, employee engagement, organization design, workforce management, leadership and employee development, employee relations, performance management, reward (compensation and benefits) and recognition.

What we look for

- Previous HRBP experience (minimum 3 years)
 - Significant knowledge of specific HR areas such as engagement, employee relations, talent management, performance management and recruitment
 - A passion for people management
 - Excellent communication and influencing skills
 - Strong analytic skills
 - Good command of English and basic French
 - Experienced user of Excel, Power Point and Word
 - Driving license and driving experience
- Please send your resume to irina.stoica@renault.com before December 15th.
